

## **Paper Bubble Wrap**

### **Eco-friendly Packaging Material**

Paper bubble wrap is made of pulp and can be easily degraded in 6-12 months in the natural environment. It is pollution-free to the environment, and 100% recyclable. It is a sustainable and environmentally friendly packaging material and a perfect substitute for traditional bubble film.

### **Better Cushion Function**

The double-sided convex bubble structure makes the bubble wrap paper elastic and has a good cushioning effect to prevent transportation damage. Bubble paper can be used to wrap products or fill gaps. It can be applied to packaging needs of various shapes and sizes, providing reliable protection for your transportation.

### **High Quality & Excellent User Unboxing Experience**

Our innovative packaging wrapping paper is with high quality and can reduce your total cost, provide a good customer experience and improve customer satisfaction.

### **Easy to Use**

By adding the easy-tear knife (perforations) technology, the wrapping bubble paper can be easily torn off during use without the need for cutting tools. It is quick and convenient and increases your packaging speed.

### **Different Specification and Sizes Can Be Customized**

We provide paper packaging wrap in different widths and lengths to meet your packaging needs. If you require custom bubble wrap paper to meet your specific needs, we can also tailor it for you.

### **Save Costs**

Bubble wrap wrapping paper is compressed, stored and transported in roll form, which is small in size and easy to transport and handle. Bubble wrapping paper only needs to be expanded when it is used, which is efficient and saves 80% of storage space and transportation costs.

### **Improve Packaging Efficiency**

When used with a paper bubble wrap machine, it can automatically expand the bubble wrap paper, with a fast speed of up to 15 meters per minute. The length of the bubble paper wrap can be set by yourself, and the operation is flexible. It is your economical and efficient packaging solution.

## High quality paper bubble wrap provide worry-free protection for your products.

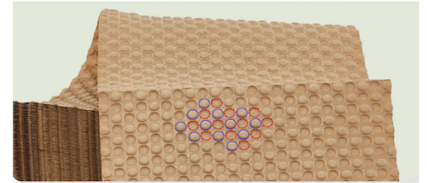

The double-sided raised bubble structure of paper bubble wrap is elastic and forms a good cushioning and shock-absorbing performance, which can protect items from damage during storage and transportation.

Bubble paper is a cost-effective packaging solution. It is widely used in the packaging and transportation, express logistics, warehousing, office, manufacturing and online retail industries.

Paper bubble wrap are produced and inspected in strict accordance with ISO9001 and ISO14001 requirements.

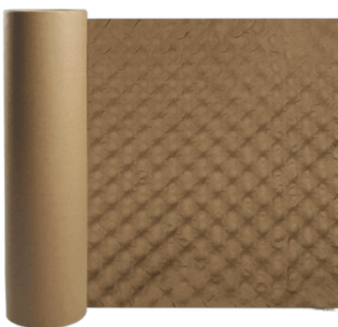

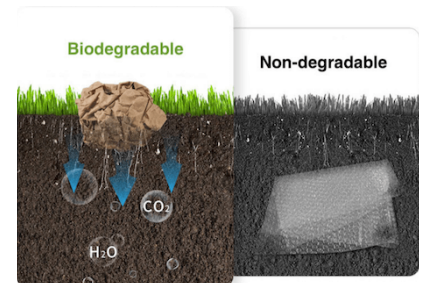

We offer paper bubble wrap in roll and stacking 2 packaging ways to fit your different demands.

**Excellent cushioning performance**  
The double-sided convex bubble structure of the paper bubble wrap is elastic and has excellent cushioning and shock absorption performance.

### Features and advantages

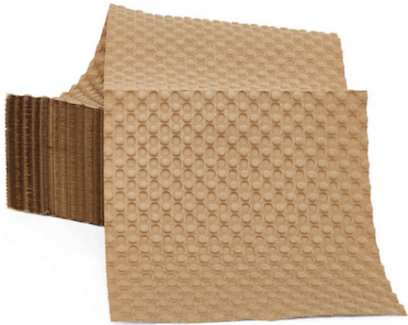

- Green material, reusable, 100% recyclable, biodegradable and compostable
- Better cushion, shock-absorbing performance
- 100% virgin wood pulp kraft paper
- Easy to use, fast expand
- Save space and shipping cost
- Cost effective alternative to traditional shipping materials

### Paper Bubble Wrap (Roll)

- Made of 100% virgin wood pulp kraft paper
- Better cushion protection
- Packed by roll
- Easy to Use
- High cost-effective

### **Paper Bubble Wrap (Stacking)**

- Made of 100% virgin wood pulp kraft paper
- Good cushioning and shock-absorbing
- Packed by stacking
- Easily torn
- Brown and white 2 colors for options
- Save cost

## Paper Bubble Wrap Machine

The paper bubble wrap machine is an intelligent and innovative packaging equipment that can convert flat kraft paper rolls or folded paper into environmentally friendly bubble wrap cushioning materials with concave and convex bubbles.

### Features and advantages

- **On demand machine**

Our bubble wrap machine is an on-demand machine, adjustable speed, maximum speed up to 15 meters/min

- **Paper width of  $\leq 31\text{cm}$**

Our paper bubble wrap machine is suitable for paper bubble wrap with a width of  $\leq 31\text{cm}$

- **Easy to use and maintain**

Built-in manual cutting and can cut bubble wrap of different lengths, also with Start and stop with foot switch

- **Improve packaging efficiency**

You will improve packaging efficiency up to 70% by using our paper bubble wrap machine.

- **High Quality**

High and stable quality and 1 year quality warranty

### Applications

- Express logistics
- Warehousing
- Office
- Manufacturing
- Online retail industries
- Cosmetics
- Electronic parts
- Ceramic products
- Glass products
- Decorations
- Food
- Pharmaceutical industry

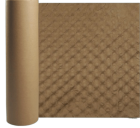

## Paper Bubble Machine

This desktop paper cushion machine can produce paper bubble wrap on demand to provide cushioning protection for fragile items. It is ready to use and compact, takes up little space, and saves space and transportation cost of materials.
